

Division of Dentistry, Oral and Maxillofacial Surgery
New York-Presbyterian Hospital – New York Weill Cornell Center
Overview

The Division of Dentistry, Oral and Maxillofacial Surgery, provides the full spectrum of dental services including restorative, periodontics, orthodontics, prosthodontics, endodontics, pediatric dentistry, temporomandibular joint disorders, oral medicine, oral and maxillofacial pathology, and oral and maxillofacial surgery. The Division participates in, and hosts, the Cleft/Craniofacial Disorders Clinic with members of Plastic and Reconstructive Surgery, Otolaryngology, Pediatrics, and Genetics, in conjunction with Drs. from the Columbia Presbyterian campus. Our faculty includes one full-time and two part-time oral and maxillofacial surgeons, one full-time restorative dentist, one part-time pediatric dentist, sixteen community-based oral and maxillofacial surgeons, two oral and maxillofacial medicine and pathology specialists, and twenty-seven community-based dentists and specialists. On-site private patient care is available from a restorative dentist, a pediatric dentist, a temporomandibular joint disorders specialist, two oral medicine specialists, and two oral and maxillofacial surgeons.

The Division is based in a 3500 sq. foot facility on the Hospital's 21st floor, a 2400 sq. foot pediatric facility on the 1st floor of the Helmsley Medical Tower shared between Pediatric Dentistry and Pediatric Surgery, and a 300 sq. foot treatment area on the Hospital's 23rd floor dedicated to patients with HIV disease. Patient care is provided in 13 total treatment rooms; five dedicated to dentistry, three dedicated to pediatric dentistry, three dedicated to oral and maxillofacial surgery, and two shared. One surgery room is equipped to provide any aspect of care under outpatient anesthesia. On-site sterilization and dental laboratory capabilities are present. All aspects of dental care are provided to a broad spectrum of healthy and medically compromised children and adults. Over 6000 patient visits are recorded yearly.

The Division has approved residencies in General Practice Dentistry and Oral and Maxillofacial Surgery. Six general practice residents receive clinical and didactic training in a one-year program. An optional PGY-2 general practice residency accepts one resident per year. The oral and maxillofacial surgery residency currently admits two residents per year; one to a six-year integrated MD program with Weill Medical College of Cornell University, and one to a four-year Certificate program. Oral and maxillofacial surgery coverage is also provided to the New York Hospital Medical Center of Queens.

Division of Dentistry, Oral and Maxillofacial Surgery administration:
